Big Play™

from evolving toys®

slowly across... for travel. But what if big... cargo bays were to carry cargo? This idea... sometimes called "roadless trucking". Imagine... a world where cargo is carried through the air... instead of inside 18-wheel trucks. Or where... cargo can just fly to places with no roads!

**ELECTRIC CARS**

Wouldn't it be amazing if your family car ran on batteries instead of using gasoline? There are plenty of cars that already do, but right now the batteries don't last long. Inventors are trying to make them better, so that fully electric cars will be able to go the same distance per charge as gasoline-powered cars go now. How will you charge an electric car? Just plug it in!

**Transportation**

each game comes with an informative educational pocket guide!
